## EDUCATION

**JSS Academy of Technical Education** (BTECH in Information Technology)

Noida, Uttar Pradesh

CGPA: **8.4** | Percentage: **84%**

**2021 - 2025**

**Modern Public School** (Central Board of Secondary Education)

Bulandshahr, Uttar Pradesh

Class 12th: **92.2%** | Class 10th: **94.4%**

**2019-2021**

## WORK EXPERIENCE

**TecoreLabs** | [Certificate](#) 

**Apr 2025 - Present**

Software Engineer

- Engineered and deployed scalable full-stack web applications using **React, Node.js, Python, PostgreSQL, and Google Cloud Platform (GCP)**, ensuring high performance and clean modular code.
- Worked on the backend of multiple projects, with fast **API response** speed and a robust **performance** through asynchronous handling, database indexing, and query optimization and **ngrok** based local testing.
- Developed a **role-based user platform** focused on women empowerment, integrating secure **multi-session management, two-factor authentication (2FA)**, and robust access control mechanisms.
- Built and maintained a compliance platform comprising five **Node.js microservices** and one **Python-based AI service** for cross-service data evaluation and intelligent validation.
- Led deployment workflows using **WSL/Ubuntu, kubectl, and gl-cloud** for secure cloud integration; collaborated with cross-functional teams using **Jira** for agile tracking and **Confluence** for project documentation.

**EduCase** | [Certificate](#) 

**Sep 2024 - Mar 2025**

Backend Developer Intern

- Optimized backend performance using **Node.js**, achieving a **60% reduction in response time** by applying the best coding practices, microservices architecture, and comprehensive documentation.
- Increased SQL query efficiency, reducing **execution time by 30%** and deepening expertise in complex queries.
- Designed, developed, and rigorously tested over **400 APIs** using Postman, ensuring **system reliability, robustness, and adherence to business logic**.

## PROJECTS

**Vroom** 

**Tech Stack:** Next.js | TypeScript | Shadcn/ui | Tailwind CSS | Clerk | Stream |

[GitHub](#) 

- Developed a scalable video calling and meeting web app for up to **10,000 users/month**. SEO using SSR.
- Applied secure authentication with Clerk, improving **user login efficiency** through multiple platform options.
- Added features like Instant Meetings, Meeting Rooms, Upcoming and Previous Meetings with screen recording and sharing features, using Stream, increasing **user engagement**.

**GlamGait** 

**Tech Stack:** React | MongoDB | Node.js | Express.js | JavaScript | Tailwind CSS |

[GitHub](#) 

- Developed a scalable e-commerce platform with responsive UI, seamless navigation, and **admin** panel support.
- Designed secure **RESTful APIs**, integrated **JWT-based authentication**, and enforced role-based access control.
- Optimized media handling with Cloudinary, improving load times and reducing storage overhead.

## TECHNICAL SKILLS

**Programming Skills:** C/C++, JavaScript/TypeScript, Python

**Frontend Technologies:** React, Next.js, Redux, Tailwind CSS, MaterialUI, Shadcn/ui

**Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT, ngrok, Cloud (GCP, AWS)

**Databases:** SQL/NoSQL, PostgreSQL, MongoDB, Sequelize, Firebase, Cloudinary

**Tools:** Git, GitHub, Postman, ChatGPT, Figma, Wix, Framer, Vercel, Excel

**Course Work:** Database Management System, Object Oriented Programming, Computer Networks

## ACHIEVEMENTS

- Published and **Presented**  the review paper "**Decentralized File Sharing using Blockchain**" at the 2025 4th OPJU International Technology Conference (**OTCON 4.0**); officially published in **IEEE Xplore**. 
- Achieved a top **LeetCode rating of 1719** with **over 800 DSA problems** solved across multiple coding platforms.

## CERTIFICATIONS

- AI Agents and Agentic AI in Python: Powered by Generative AI Specialization – [Coursera](#) 
- Backend Development – [IBM, Coursera](#) 
- AWS Cloud Technical Essentials – [AWS, Coursera](#)
